

Dear Sir/Madam:

The issue of allowing Sunday hunting is one of little controversy. Here in my home state of New York , Sunday hunting was prohibited in the Western section until about a decade ago. There is little rational thought for maintaining such a rule of law. Many hunters have only the weekend to hunt and to spend time out of doors with their children.

I urge you to change this absolute abomination of a law.

Remember - someone that hunts WITH their children, will not have to hunt FOR their children.....

Respectfully submitted,
